Public Presentation of the Kosciusko County Multi-Hazard Mitigation Plan Update

Warsaw, IN (January 13, 2026) – Kosciusko County, in cooperation with the City of Warsaw and the Towns of Burkett, Claypool, Etna Green, Leesburg, Mentone, Milford, North Webster, Sidney, Silver Lake, Syracuse, and Winona Lake have prepared an update to the Kosciusko Multi-Hazard Mitigation Plan (MHMP) to address the risk and vulnerability of communities in the county which may be affected by known natural, technological, and political hazards.

The Disaster Mitigation Act of 2000 (DMA 2000) requires communities to update their MHMP every five years in order to be eligible for any future mitigation funding through the Indiana Department of Homeland Security and the Federal Emergency Management Agency. The intent of the MHMP is to plan for a disaster before it occurs in order to reduce the physical, social and economic impact of that disaster.

The draft Kosciusko County MHMP Update may be accessed at

https://www.kosciusko.in.gov/egov/documents/1768308406_60796.pdf at your convenience.

Topics covered in the update include: an overview of the planning requirements; a summary of the risk assessment and vulnerability analysis; and proposed mitigation projects for prevention, property protection, natural resource protection, emergency services, structural control projects, and public information.

Comments will be accepted through Friday, February 6, 2026. Please submit comments to Kosciusko County Emergency Management at EMA@kosciusko.in.gov .
